# SONA Networks

## Who We Are

SONA Networks, LLC provides agile-based system design, development, testing, and operations solutions to federal, state, and local agencies in support of mission-critical systems. We provides robust, scalable, and secure IT solutions for clients with business-critical networks. Our staff members design, implement, troubleshoot, and manage networks to improve the performance and resiliency of client's IT infrastructure. Our information security experts implement and verify IT security controls based upon requirements from OMB and NIST. Our telecommunication experts add efficiency and reliability to the client's Voice network. Our project management experts manage complexity and change in the client's environment.
